Julie

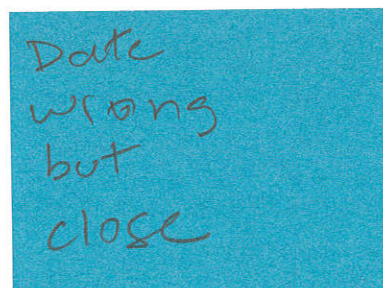

Please find attached the schedule for the Public Pavilion. I have put on the spreadsheet the approximate start and end times. I would expect to put the walls up in the morning during the days it is being used and to be taken down the following days in which the events end at 10pm or after

This spreadsheet is the same spreadsheet I sent you on October 13th, however it includes all additions since then (this is why there it shows some events from October, November and December that have already taken place)

Please let me know if you have any questions. Per the BCDCC permit, Scott's is required to give you this schedule by January 1st. I will assume this meets that requirement.

Thank you and have a nice holiday

Stephen E. Fagalde
